## Developing Christian Men by pointing men to God, men to men and men to serve

**Men To God**—represents those things related to our intimate connection with God through spiritual formation, worship, and prayer (oneness)

**Men To Men**—everything relates to how God works His redemptive ways among people (togetherness)

**Men To Serve**—represents God’s invitation to every Christ follower to participate in His work to bring redemption to the whole world, helping widows, orphans, people in need (otherness)

***We believe that unless men experience all three elements together, they won't grow as disciples of Christ and people who haven't made that decision yet won't be moving toward God.***
